

## **2007 – 2008 Season Policies and Guidelines**

### **NFVB Policies:**

The 18 National team be added to NFVB. The players will be selected on basis of skill, regardless of age, in consultation with the selection committee.

07-08 National and Regional team selection committee will consist of five experienced, unbiased evaluators. Alternate to the selection committee will be a designee of the board of directors.

“Coach Selection” guidelines will be used as basis for annual coach placement.

National and Regional players (other than 18 National) will tryout and participate at age guideline established by USA Volleyball, unless directed to try out at an alternate age level by the National/Regional Selection Committee. Local players will tryout at age guidelines established by USA Volleyball, but may request to be considered for placement to one age level higher by contacting the club director. Consideration for these requests will be based on space availability at the requested level.

### **NFVB Guidelines:**

A National player that may be considered to play up one age group will be determined and approached only by the NFVB selection committee, and not determined by a player request or parent request. The National/Regional selection committee and affected coaches must discuss and agree to move a player up and only do so in extremely rare situations to ensure success of each of the effected teams.

The selection committee may place Local players in one higher age bracket in an effort to provide equity in rosters.

It is recommended that no more than three players from any one school may play on any team.
